# Glossary/Useful information

## What is an "Airtime credit"?

This is a credit with a monetary value that is added to your designated Church Resources Billing account. This can be used to offset your monthly/usage charges or towards a phone if purchased against your billing account. This cannot be paid out as a cash amount.

## Pricing

All prices included in this document are GST exclusive

## Free calling group / ITZ

The Business Smart plans provide free calling between all Church Resources mobiles. Business Landlines can be included in this also but will need to be with Vodafone and identified as belonging to the Church Resources group with the integrated talkZone (ITZ) product added. This service is usually \$10.00 per line but free for Church Resources members.

## Contract terms (Resigns and New Contracts)

All plans have a 24 month term option. There is also a 1 or 12 month plan option on the following Business Smart plans: Starter, Essentials, Plus, Ultimate & Premium.

- The 1 month term can be terminated at any time without an early termination charge. This is a good option for a temporary user who does not require a new phone.
- The 12 month term has a monthly discount on the access charge associated with it instead of a hardware subsidy. You can opt to purchase a phone outright for the RRP with this plan if required. Early termination charges apply if you wish to cancel this contract before the term has completed.
- A 24 month term provides you with a hardware subsidy towards a new Vodafone Smart phone. Early termination charges apply if you wish to cancel this contract before the term has completed.

## Resign eligibility

You are eligible to resign your contract for a new 12 or 24 month term after you have completed 18 months of your current 24 month contract.

## Contract terms (Transfer of existing term)

If you are still within the first 18 months of your current Church Resources contract term you are able to transfer this remaining term across to a Business Smart plan. You will not receive a new hardware subsidy or be eligible for the 12 month contract pricing.
